CYRUS FLOORS

TRUE-MATCH NOSING

THE STAIR NOSING THAT ACTUALLY MATCHES.

Made from the original flooring plank for a coordinated finish from floor to stair.

- **TRUE FLOOR MATCH** — Coordinated colour, sheen and texture
- **CLEAN FLUSH PROFILE** — Modern square-edge finish
- **CLICK-IN CONNECTION** — Purpose-built for the matching plank

WHY TRUE-MATCH STANDS APART

Compared with typical moulded nosing

COMPARISON	TRUE-MATCH NOSING	TYPICAL MOULDED NOSING
Construction	Original flooring plank	Separate moulding product
Colour and texture	Coordinated to the floor	Approximate match; possible variation
Connection	Integrated click-in locking edge	Typically relies mainly on adhesive
Profile	Clean, flush square edge	Often rounded, overlapped or limited
Finished appearance	Continuous, purpose-built transition	A visible accessory or add-on
Installer experience	Connects with the matching plank	May require extra fitting or adjustment

BUILT FOR A CLEANER FINISH

Flush square profile | Reinforced core | Integrated click-in connection

PROFILE DIMENSIONS

INSTALLATION AT A GLANCE

1. Prepare a clean, dry and flat stair base.
2. Cut the riser, nosing and tread plank to fit.
3. Click the tread plank into the nosing profile.
4. Apply approved construction adhesive and secure firmly.

A PURPOSE-BUILT NOSING. A TRUE FLOOR MATCH.
